We do not hold ourselves responsible for any errors which may arise during transit.

NEW CUSTOMERS will always find us ready to serve them, provided that they send **Cash**—less 5 % discount from **printed** prices—or a satisfactory **reference** with their **first** order.

WILLIAM KELWAY.

JAMES KELWAY.

 **Living in the country, farming our own land,**

we are able to give that continuous personal supervision to the selection and saving of Stock Seeds which is necessary to ensure the purity and high quality which the Trade requires.

Our prices are independent. **WE print REAL prices which**—as long as unsold and without engagement—**we are willing to accept.** It will be noticed that they are exceptionally reasonable. They are nett, except that they are subject to the ordinary discounts for cash.

In no district do we compete for the trade of our own customers by doing any trade with market growers; we solicit in seeds the custom of the **legitimate seed trade** only, whether by travelling or advertisement.

ELECTROS are **lent gratis** (for catalogue work only) to firms who are customers for the strains which the electros illustrate. **Early application** should be made.

Our aim is : firstly, **quality** ; *secondly*, **quality** ; **THIRDLY**, **quality**.

ROOT SEEDS.

All our Stock Seeds are saved from specially-chosen transplanted Roots.

We have been for over half a century Growers and Selectors upon our own farms, at and near Langport, of Special Stocks of Swedes, Mangolds and Turnips, and we honestly believe and state with the utmost confidence that purer and choicer kinds than our Special Sorts have never yet been sold. This refers in proportionate degree to our strains of other varieties. ALL are to be relied upon as the best of their kind, and undergo rigid selection.

To some varieties we have affixed prices which we are willing to accept at the moment of going to press, but we enter into no engagement to adhere to these prices for any period longer than suits ourselves.

Mangold.

KELWAY & SON'S LANGPORT PRIZETAKER YELLOW GLOBE (Title Registered). The entire stock was originally selected from one bulb. It has a **very small top** and very few fibrous roots, it is therefore lifted with a minimum of labour, and is fed with a minimum of waste; its symmetrical shape and attractive colour make it unequalled for exhibition. The flesh is of the densest consistency and most nutritive quality, and it reaches a very great size; consequently it is *an exceedingly heavy cropper*, and is absolutely unsurpassed in this respect. Having been fixed as a variety for such a number of years, its sportive character is practically *nil*, but we are untiring in our annual labour of selecting stock roots to grow from. *We send a very fine coloured representation of this variety to those who stock it, mounted on canvas and rollers ready for hanging (see illustration herewith).* 42 0

Put up in 1-lb., 2-lb., 4-lb., 7-lb., and 14-lb. sealed printed canvas bags, at 48/- per cwt. (carriage paid). The variety can only be obtained from **Kelway and Son, Langport.**

KELWAY'S IMPROVED CORNER'S YELLOW GLOBE. This needs no introduction in the West of England. The stock originated in our neighbourhood, and seed was obtained by us from Mr. Corner himself upon its introduction. Though so near perfection at that time, the great care we have bestowed upon it has evidently been appreciated by our customers 36 0

KELWAY'S INIMITABLE LONG RED. An immense cropper. We recommend it beyond any for weight, feeding properties, and ease in lifting 34 0

KELWAY'S RE-SELECTED MAMMOTH (or GIANT) LONG RED. The properties of the original Mammoth are well known. This is a very careful selection from it, having in view the elimination of coarseness whilst keeping it of a large size 32 0

Mangold—continued.

KELWAY'S LORD OF THE ISLES INTERMEDIATE. A wonderful improvement upon the ordinary Intermediate, being a more fixed stock of the correct Intermediate type. Very rich in quality and clean lifting 45 0

KELWAY'S LANGPORT MAMMOTH.

(Registered Title.)

The Hardy Heavy Cropping Purple Top Swede.

36/- per bushel.

This variety is an enormous cropper, one of the most hardy and disease-resisting sorts in cultivation, seldom getting mildewed, and the highest quality Swede in cultivation. It possesses the useful property of growing freely in all kinds of soils. It is as near as possible globe shaped, with a very short neck, dwarf foliage, and a clean single tap root. It possesses very dense sound flesh. The portion of the root growing out of the ground is of a deep plum colour. We annually save large quantities of this variety entirely from our own stock seed on account of the increasing favour with which it meets. Our stock is still as pure as ever.

A fine representation of this variety, 2 feet by 3 feet, painted in oils from nature, mounted on canvas, and framed, will be sent to all who stock it.—See annexed illustration.

Put up in 1 lb., 2 lb., 4 lb., 7 lb., and 14 lb. sealed printed canvas bags, at 82/- per cwt. (carriage paid). The variety can be obtained only from

KELWAY'S FARMER'S FAVOURITE,
